Honorable James H. Welsh,
Commissioner of Conservation
Office of Conservation
P. O. Box 94275
Baton Rouge, LA 70804-4275

Re: **APPLICATION FOR PUBLIC HEARING**

Proposed Unit
Hosston 7700' Sand, Reservoir A
Calhoun Field
Jackson Parish, Louisiana

Dear Sir:

Application is hereby made on behalf of **NADEL & GUSSMAN - JETTA OPERATING COMPANY**, (Applicant), to the Commissioner of Conservation for a public hearing to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Hosston 7700' Sand, Reservoir A, Calhoun Field, Jackson Parish, Louisiana:

1. To establish one (1) 640 +/- acre drilling and production units for the exploration for and the production of gas and condensate for the Hosston 7700' Sand, Reservoir A, Calhoun Field, Jackson Parish, Louisiana, such unit being designated HOSS 7700' RA SUA, and shown on the attached plat and being made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property within each of the proposed units in accordance with Section 10, Title 30, of the Louisiana Revised Statutes of 1950, with each tract to share in the unit production on a surface acreage bases of participation.
3. To designate Nadel & Gussman-Jetta Operating Company as operator for the proposed HOSS 7700' RA SUA.
4. To designate the Nadel & Gussman – Jetta Operating Company – Willamette C No. 1 well as the unit well for the proposed HOSS 7700' RA SUA.
5. To provide that future wells drilled to the Hosston 7700' Sand, Reservoir A, be located at least 1000' from unit lines and 2000 feet between wells.
6. To provide for a reclassification of the Hosston 7700' Sand, Reservoir A, without the necessity of a public hearing providing that sufficient evidence is presented to and accepted by the Commissioner of Conservation to warrant such change.

7. To consider and cover such other matters as the Commissioner of Conservation may deem and appropriate.

The Hosston 7700' Sand, Reservoir A, in the Calhoun Field, Jackson Parish, Louisiana, is to be defined as that gas and condensate bearing interval found between the depth of 7,727 feet to 7,732 feet (electric log measurements) in the Nadel & Gussman – Jetta Operating Company (formerly TXO Production Co.) Willamette C No. 1 Well, located in Section 3, Township 17 North, Range 1 West, Jackson Parish, Louisiana.

The pertinent data pertaining to this application is available for inspection at the Offices of Bob F. Anderson, PE, Inc., 400 Travis Street, Suite 209, Shreveport, Louisiana 71101. Any person wishing to inspect such data should call Bob Anderson 318/425-4230 during normal business hours in order to arrange a date and time for such inspection. A copy of any such pertinent data that is otherwise not available from the Office of Conservation can be obtained **at the expense of the requesting party**.

A pre-application notice was sent to all parties stating a time and date for a conference to discuss the proposed application, however, no request for a conference was received, therefore no conference was held.

Pursuant to the revised Rules of Procedure, Applicant has made a reasonable effort to obtain the names and addresses of all Interested Owners, Interested Parties and Represented Parties to whom this application and plat is being sent. A copy of this letter, plat and list of parties is being sent to the Commissioner of Conservation and to the District Manager of the Monroe District Office of Conservation. In compliance with the Rule of Procedure, upon receipt of the legal notice, it will be published in a newspaper with general circulation in the area of the field, posted in a prominent place in the area of the field and will be sent to all Interested Owners, Interested Parties and Represented Parties.

Our check, made payable to the Office of Conservation, is attached to cover the applicable hearing fee.

Yours truly,

B. F. Anderson, PE for

NADEL AND GUSSMAN-JETTA OPERATING COMPANY
